ABOUT ME

Software Engineering student skilled in Laravel, Vue.js, Flutter, MySQL, and Git, with experience building web and mobile applications. Seeking an internship to grow and contribute in a professional environment.

EDUCATION

Bachelor of Software Engineering | 2022 - Present

Metropolitan University, Sylhet

CGPA : 3.69 /4.00 (current)

EXPERIENCE

Laravel Vue Developer Trainee – IT Lab Solutions

5-Month Professional Training Program

- Completed professional training in Laravel, Vue.js, MySQL, and full-stack web development.
- Developed a full-stack House Rental Management System as a team project.
- Implemented features including house listings, user booking, calendar-based booking, and an admin dashboard.

Coding Instructor – Software Innovators Forum

- Guided participants through algorithmic problem-solving using C/C++.

PROJECTS

House-Rent Management System (Group project)

[Github](#)

A website that rent house or give house for rent. Admin dashboard was also added.

My contribution: Make a calendar for house filtering and a booking system.

Technologies: Laravel, Vue.js, MySQL, Node.js

ProjectSell - Learning Management System

[Github](#)

A project selling website that sells software engineering projects and also teaches.

Technologies: Laravel, Vue.js, MySQL, Node.js

NoteQuest - Note-taking mobile app with AI

[Github](#)

An intelligent note-taking mobile app that helps students understand complex notes using AI. Built with Flutter and the OpenRouter API.

Technologies: Flutter, Dart

CERTIFICATES

IELTS | 2024

Band Score: 7.0

SKILLS

Full-Stack Development: PHP, Laravel, Vue.js, MySQL, Node.js

Mobile App Development: Flutter, Dart

Tools: Git, GitHub, VS Code, Node.js, XAMPP

Professional Skills: Communication, Teamwork, Problem Solving, Time Management
